

BAMBO SIBIYA
Ngemva Kokuqubuka – After Precarity

Bambo Sibiyá's art delves into the complexities of African experience and resilience against racialized power structures. His work reclaims African portraiture, celebrating joy and dignity through vibrant, staged compositions featuring friends and local artisans. Sibiyá's previous works explored South African cultural heritages like the Swenkas, who used fashion to subvert cultural norms. His latest pieces transform domestic worker uniforms into opulent Victorian gowns, challenging perceptions of labor and class. Sibiyá's meticulous mix of printmaking and freehand drawings juxtapose order and chaos, reflecting life's inherent contradictions. This exhibition is a powerful call to embrace and celebrate the richness and complexity of the African experience.
